SAVE THIS GUIDE!

You will want to file this guide in your favorite reference spot and keep it for all those projects – planned and unexpected – that comprise an average year of municipal responsibilities. No better or more direct listing of products and services is available to Wisconsin municipalities than what you will find contained in these pages. Just to be complete, all the League resources are in here too!

FREE RFP POSTINGS!

The League website carries a page especially for municipal Request For Proposal listings. We can post the overview of your RFP and link to the full RFP packet. Increase the number of proposals you receive and make your search for the right partnership more competitive by listing your RFP with the League.

The League also posts municipal employment vacancies on the website, and we run information about items municipalities are selling – from fire trucks to filing cabinets. All postings are done without charge for our members. Send your information to classified@lwm-info.org or contact Robin Powers for more information at 608-267-2383.
